Penalty of Conceit.

Lots of failures can be traced to the belief that other people are not quite so smart as we are.—Boston Transcript.

The Backward Bird.

The flamingo performs a number of its daily duties in a backward or upside down manner. When the flamingo dines, it rests its head in the mud on the bottom of a shallow stream, and while it strains the insects out of the water it takes both a backward and an upside-down view of the world about it.
